PROFESSIONAL SUMMARY

Computer Programming student with 2+ years of experience building and deploying production systems, including Spring Boot microservices, React applications, and Python ETL pipelines. Strong in full-stack development, cloud deployment on AWS, and translating ambiguous requirements into scalable, customer-focused solutions.

EDUCATION

Diploma in Computer Programming, Humber College Expected 2026
Relevant Coursework: Object-Oriented Programming (Java), Database Design (SQL), Cloud Computing (AWS), Network Programming, Operating Systems (Linux), Automated Testing

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL
Frameworks & APIs: Spring Boot, Node.js, Express.js, React, REST APIs
Databases: MongoDB, PostgreSQL, Relational Design & Optimization
Cloud & Data: AWS (EC2, S3, Lambda), Apache Spark, AWS EMR
Tools: Git, Maven, Automated Testing, Power BI, Linux CLI

EXPERIENCE

Junior Service Technician Oct 2024 – Sep 2025
Canada Computers & Electronics *Vaughan, ON*

- Resolved 50+ daily technical cases across Windows/Linux with 95% first-contact resolution.
- Orchestrated 200+ system deployments with custom network configurations under 2-hour SLAs.
- Authored 15+ troubleshooting standards, reducing escalations by 20%.

Bookkeeper & Web Support Assistant Jan 2024 – Oct 2024
Ilaxi's Food *Toronto, ON*

- Automated reconciliation of 100+ weekly transactions using Python, reducing processing time by 25%.
- Built data validation workflows ensuring 100% accuracy across JSON/XML financial feeds.

PROJECTS

Calipher – MCQ Answer Optimization Engine Java, Spring Boot, AWS EC2

- Designed modular microservice with statistical analyzers; deployed REST APIs handling 50+ concurrent requests at 99.9% uptime.

Movies Discovery Platform React, Node.js, MongoDB, AWS EC2

- Architected full-stack platform serving 100+ REST endpoints; optimized MongoDB pipelines to 120ms avg response.
- Deployed scalable backend with real-time search over 10K+ records.

Customer Analytics ETL Pipeline Python, Spark, AWS EMR, SQL, Power BI

- Built ETL pipeline processing 2,000+ records; reduced dashboard refresh time from 45s to 3s.

LEADERSHIP

Event Coordinator – Volunteer, BAPS Swaminarayan Sanstha 2022 – Present
Coordinated 15+ large-scale events, leading 50+ volunteers and optimizing schedules.
