PROFESSIONAL SUMMARY

Computer Programming student at Humber College with demonstrated expertise in AI-powered customer support optimization, cross-functional collaboration, and data-driven performance analysis. Proven track record of enhancing client experiences through systematic troubleshooting, process optimization, and innovative technical solutions across retail technology and digital commerce environments.

EDUCATION

Diploma in Computer Programming, Humber College Expected 2026

Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management, AI Fundamentals

TECHNICAL SKILLS

Programming & Development: Java, JavaScript, Python, Node.js, Express.js, Next.js, SQL, HTML5, CSS3

AI & Analytics: Performance monitoring, data analysis, customer feedback analysis, process optimization

Platforms & Tools: WordPress, Elementor, Figma, MailChimp, Eventbrite, Microsoft Excel, Git

Technical Support: Hardware diagnostics, system optimization, cross-platform integration, workflow automation

PROFESSIONAL EXPERIENCE

Junior Service Technician Oct 2024 - Sep 2025

Canada Computers and Electronics *Vaughan, ON*

- Orchestrated technical support workflows for 50+ daily customer interactions, achieving 95% first-contact resolution through systematic diagnostics and AI-powered troubleshooting protocols
- Analyzed customer feedback patterns to identify recurring technical issues, translating insights into actionable service improvements that enhanced satisfaction scores by 20%
- Optimized service delivery processes through data-driven diagnostic protocols, reducing average resolution time by 30% while maintaining quality standards
- Collaborated cross-functionally with senior technicians to develop knowledge base documentation, improving team efficiency and standardizing technical procedures
- Generated \$15K+ monthly in service package revenue through strategic consultation on system optimization and performance enhancement solutions

Bookkeeper and Web Support Assistant Jan 2024 - Oct 2024

Ilaxi's Food *Toronto, ON*

- Streamlined financial operations by implementing automated reconciliation processes, reducing processing time by 25% and improving accuracy
- Architected customer support framework handling 100+ weekly inquiries across billing, payments, and web-based issues with 48-hour resolution SLA
- Enhanced digital customer experience through WordPress/Elementor optimizations, increasing online order conversion rate by 15%
- Deployed integrated marketing campaigns using MailChimp and Eventbrite, driving 30% increase in event attendance and customer engagement
- Collaborated with development team on Next.js/Tailwind CSS implementations, contributing to 40% improvement in page load speeds

RELEVANT PROJECTS

AI-Enhanced E-commerce Platform <i>Node.js, Express.js, JavaScript, MongoDB, Machine Learning APIs</i>	2025
- Engineered full-stack e-commerce application integrating AI-powered product recommendations and chatbot support functionality - Implemented real-time performance monitoring dashboard tracking user interactions, conversion rates, and system metrics - Designed responsive UI/UX with focus on accessibility and user experience optimization, achieving 90+ Lighthouse score - Integrated customer feedback loop system for continuous improvement of AI recommendation algorithms	

Customer Experience Analytics Dashboard <i>Python, PowerBI, SQL, REST APIs, Microsoft Copilot</i>	2024
- Developed ETL pipeline using Python/pandas for 100K+ records; engineered PowerBI dashboards achieving 85% forecasting accuracy - Integrated Microsoft Copilot for natural language querying; automated workflows reducing manual reporting by 70%	

LEADERSHIP & VOLUNTEER EXPERIENCE

Event Coordinator BAPS Swaminarayan Sanstha	2022 - Present Toronto, ON
- Spearheaded coordination of 15+ community events annually, managing cross-functional teams of 50+ volunteers - Developed systematic workflow processes for volunteer scheduling and resource allocation, improving operational efficiency by 35% - Fostered collaborative environment through effective communication and conflict resolution strategies	

ADDITIONAL QUALIFICATIONS

- Strong analytical mindset with experience in KPI monitoring and performance optimization
- Demonstrated ability to translate technical concepts for non-technical stakeholders
- Proven track record of driving continuous improvement through experimentation and data analysis
- Experience with agile methodologies and iterative development processes
